This song is a great opportunity for practising chords if you are still new to the guitar. It uses three chords which are A major, D major and E major.

In the tutorial, each of the three chords are broken down and explained. Take your time to make sure you have a good command over each hand position. Make sure you can get a clean sound and find it easy to change from one to the next. If you struggle with chords this may take some time, but it will get easier and easier the more that you try.
